Friday 17th July—School closes for Summer Holidays at 2.30pm

Homework

Please can you ensure your child reads a minimum of three times per week and brings their reading book and record in to school everyday. This will be signed every Monday along with your child's diary.

It would be great if your child could spend time practising times tables to help them with their maths and you could go through their weekly arithmetic tests that will be brought home on a Friday. The children should also continue to work on Reading Plus, SPAG. com and the Doodle Maths App.

PE

Outdoor PE will be on a Tuesday and indoor PE will be on a Wednesday. Please ensure that the children have their kit every day so they are prepared if we have a change of plan.

Year 6 LS Summer Term Curriculum Newsletter

Dear Parents and Carers,

I hope you all had a relaxing break and a wonderful holiday, filled with plenty of chocolate treats. I can't quite believe that we're into our final term of the school year and your child's final term here at Bowmandale. Although it is set to be a busy term, it will also be filled with lots of fun and exciting opportunities to ensure your child has a great end to their time with us.

On the reverse of this newsletter you will find information about the topic and subjects your child will be learning this term.

Should you have any queries, questions or concerns about your child's learning, please feel free to contact me either via the school office or write a note in your child's diary.

Thank you for your on-going support with your child's learning, I look forward to continue working with you over the coming weeks and months.

Miss L Singleton

Class Visits

Fun Splash Event - Friday 15th May

Bomber Command - Tuesday 19th May

Class Books:

Friend or Foe - Michael Morpurgo

- enumerate possibilities of combinations of two variables.

Statistics

- interpret and construct pie charts and line graphs and use these to solve problems
- calculate and interpret the mean as an average

Geometry

- measure and draw angles accurately up to 360 °
- know how to solve problems using angle theory

Science

- Electricity
- Light

Music

- Listen and appraise
- Perform and share

RE

- For Christians, what kind of a king was Jesus?
- Why do some people believe in God and some people not?

PSHE

- Relationships
- Changing Me

French

Manger et bouger (Healthy Lifestyle)
Moi dans la monde (Me in the World)

Computing

- Networks
- Quizzing

PE

Indoor — Dodgeball
Outdoor Games — Athletics and Rounders

English

Throughout the term, we will be looking at a range of genres. The content of the work within each genre will be linked with our topic; some of these genres may include, poetry, recounts, letters, stories and persuasive debates. We will also be focusing on various grammatical structures.

Linking with our topic on the World Wars, we will be looking at the book 'Friend or Foe?' written by Michael Morpurgo.

Is war the answer?

This is our project question this term. We will begin by looking at World War One, then progressing on to World War Two.

History

We will look at the causes and consequences of both World Wars, then we will link this back to our local history, considering how war impacted Barton upon Humber.

Geography

We will look at which countries were involved in both World Wars and where they are located in the world.

Art/ Design and Technology

In D.T., we will research electrical circuits and create our own game board.

In Art, we will explore silhouettes and develop painting techniques, using canvases.
