Straight... True... Successful

Key Dates

- 26th September — Macmillan cake sale
- 6th October—Individual School Photo day
- 6th October—Get Ahead PE day—board games
- 10th October—Harvest Assembly
- 17th October - RE curriculum day
- 20th and 22nd October—Parents' Evening
- 24th October—Inspire
- 24th October—Conker Final
- 4th November—Halloween Disco
- 4th November Flu Vaccinations
- 10th November—Odd Socks
- 14th November—Children in need
- 17th November—Road Safety assembly
- 26th November—Family book look session
- 27th November—Flu Vaccinations
- 29th November—Barton Christmas Festival
- 4th December—Non-uniform day
- 5th December—Christmas Fayre
- 11th December—Year 3/4 Christmas Carol Service
- 12th December—Pantomime
- 15th December—Year3/4 Christmas Party
- 16th December—Festive fun run
- 16th December—Christmas Lunch
- 19th December -Finish at 2:30pm

Homework

The children will receive weekly homework related to the week's learning. Please can all homework be in school for the following **Thursday**.

Please can you ensure the children bring their reading books and records into school every day and aim to read a minimum of at least three times a week. Children reading this or more will receive a star.

I will send home new spellings each **Friday** and then test the children on these spellings the following **Friday**. It would also be great if children could spend time practising times tables each week so they can recall them at a fast pace.

PE

Indoor PE will be on a **Tuesday** afternoon and outdoor PE will be on a **Friday** afternoon.

Please ensure that the children have their kit every day so they are prepared if we have a change of plan. Please provide earring tape for pierced ears and hair bands to tie long hair back.

Year 3 Autumn Term Curriculum Newsletter

Dear Parents and Carers,

Welcome back to a new school year. We hope you have had a relaxing summer holiday. It is lovely to have the children back in class and we are looking forward to the year ahead.

We have many exciting activities planned throughout this term which links to our Autumn project of Ancient Egypt. Our overarching question is, 'What can we learn from the Ancient Egyptians?' Each week we will pose a more focused question that drives the learning towards answering our project question. We will be learning the answers to these questions through lots of immersive learning opportunities.

Should you have any concerns or queries, please do not hesitate to ask, either by catching us on the door or via the school office where we will endeavour to get back to you as soon as possible. Please remember to check the school APP for updates in our learning.

Thank You!

Mrs Lombard and Mrs Wood

Class Book:

Tilly and the time machine—Adrian Edmondson

School trip:

In school workshop—Ancient Egyptians
Pantomime

Maths

Shape, Space & Measure

- draw 2-D shapes and make 3-D shapes using modelling material
- recognise 3-D shapes in different orientations and describe them
- recognise angles as a property of shape or a description of a turn
- identify right angles and turns
- identify whether angles are greater than or less than a right angle
- identify horizontal and vertical lines and pairs of perpendicular and parallel lines

Number and Place Value

- count from 0 in multiples of 4, 8, 50 and 100; find 10 or 100 more or less than a given number
- recognise the place value of each digit in a three-digit number (hundreds, tens, ones)
- compare and order numbers up to 1000
- identify, represent and estimate numbers using different representations
- read and write numbers up to 1000 in numerals and in words
- solve number problems and practical problems involving these ideas

Addition and Subtraction

- add and subtract numbers mentally
- add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction
- solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction

Multiplication and Division

- recall and use multiplication and division facts for the 2, 5 and 10 multiplication
- calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication ($\times$), division ($\div$) and equals (=) signs
- solve problems involving multiplication and division

PE

Outdoor— ball skills and netball
Indoor—gymnastics and yoga

Computing

Email, route planners and branching databases

Literacy

Throughout the term, we will be looking at a range of genres. The content of the work within each genre will be linked with our project of 'The Ancient Egyptians'.

Some of these genres may include, poetry, recounts, instructions, stories and persuasive writing.

Project: What can we learn from the Ancient Egyptians?

In our project we will be learning all about the Ancient Egyptians and their achievements. We will explore the following questions:

Where did the Ancient Egyptians live?

What did they use the River Nile for and why was it important?

How did the Ancient Egyptians communicate?

When did the Ancient Egyptians live?

Who ruled Ancient Egypt?

How and why were the pyramids constructed?

What was the afterlife and how did you get there?

What can we learn from the Ancient Egyptians?
